

REMARKS

This Preliminary Amendment seeks to place this application in condition for allowance.

The instant application is a divisional of Application Serial No. 10/450,238 (hereinafter "the '238 application"). The '238 application is pending. The application includes, on page 1, a statement reflecting the relationship to the '238 application; thereby perfecting the claim of priority. (See, 35 USC §§ 120 and 121). No new matter has been added.

Pending claims 1-27 have been deleted, without prejudice, and new claims 28-60 have been added to more fully protect certain aspects of the inventions described and illustrated in this application. These newly submitted claims are fully supported by the specification as originally filed (see, *for example*, pages 13-17, 24-27 and 30-31, and FIGURES 1-4 and 13-16). No new matter has been added.

CONCLUSION

Applicants respectfully request entry of the foregoing Preliminary Amendment prior to examination of this divisional application. Applicants submit that all of the claims present patentable subject matter which definitely set forth the novel and unobvious features of the inventions. Accordingly, Applicants respectfully requests allowance of all of the claims.

Date: December 4, 2003

Respectfully submitted,
